

101 Cambridge Science Park – Project Management

This project comprises the development of two detached office / laboratory buildings extending to a total of 80,000 sq. ft.

Constructed in 2000 the properties are on ground and two upper floors. Built to an exacting modern standard including full air-conditioning, raised floors and extensive car parking. Potential specialist Laboratory use was also reflected within the designs.

The £8m construction contract took approximately 18months to complete in two overlapping phases.

Neilson Project Services acted as Project Manager for the scheme which was undertaken by Equitable Life now part of Insignia.
